

"Send us to bring them in"

"GOT GASOLINE?" by Colleen Wheeler

A few weeks ago the Lord used something that happened in the natural to teach me a spiritual lesson and I would like to briefly share it with you.

I was driving my car when I heard the sound of my gas alarm go off. Usually I would drive to the nearest gas station and fill up the tank. However, during this particular morning, I heard the Lord say, *"If you do not fill your tank with gas the car will stop."* I thought about that for a minute...until the Lord gave me a deeper insight and then I heard, *"If you do not refill your spiritual tank, the ministry will stop."* I shuddered at those words.

I continued with my regular routine until exactly one-week later. It seemed nothing was working out; my computer crashed, the blender spun out of control and smoked up until it broke , and my ATM machine was not dispersing cash. To top things off, after I drove 45 minute to meet my evangelism team, no one showed up. Feeling discouraged as I was driving home , my spiritual alarm when off and something clicked as I recalled the lesson the Lord showed me the week before. ***If I did not stop and fill up my tank with spiritual gasoline, everything was really going to stop!*** I finally got it.

As I yielded, I began to spend quality time with the Lord and He began to refill me with His precious Spirit. Also, during a pastors meeting, after an intense time of worship, I received a huge breakthrough of Holy Spirit's fire. Yes, praise God, my tank has been refueled and I am now ready to go
